

**Bringing Ultrafast
Broadband
TO YOUR AREA**

Connecting Devon
and Somerset

airband
high speed internet

AIRBAND NEWSLETTER

You may be aware that in December 2020, CDS (Connecting Devon and Somerset), with support from the Government, signed contracts with Airband to deliver full fibre broadband to 40,154 homes and businesses in earmarked areas of Devon and Somerset and require the construction of an estimated 2,419 miles of fibre network. Delivery will be in phases between 2021 and 2024.

As part of this new Fibre to the Premise (FTTP) Broadband network, **South Milton** has a number of premises within this contract that are to benefit directly. Many other premises along the fibre route and within close proximity may also be able to access the network once completed.

The new network that will service **South Milton** is due to be completed by end Quarter 2, 2022. Surveying is imminent which will raise curiosity within your community.

As the **Community Liaison Executive for your region**, I will keep your Parish Council up to date with progress and have given them details of the technology, products and process that will be available for the project, and the benefits of full fibre broadband to your residential and business communities.

If you would like any further information please do not hesitate to contact me.

Kind regards,

Lynda
